**Most newer smart TVs with Amazon, Roku, or Apple TV software often work, but we can't guarantee compatibility.**

*Notes: Roku does not have access to On Demand content , Free Previews. Radio or Stingray channels. Using the MY TV App or Wightman TV App you will have access to channels you are subscribed to.*

## Mobile & Tablet Streaming

---

Take your shows on the go with Apple or Android devices connected to your Wightman Wi-Fi.

### How to Add 'WIGHTMAN TV' APP From Fire TV / Apple TV / Roku

1. Go to App store within device and search for 'Wightman TV
2. Download and Install the App
3. Device code will appear on screen with passphrase
4. Enter into MY TV App and click pair

### Required Services

To use Wightman Streaming TV, you'll need:

- ✓ Wightman Basic TV subscription with one wired Set Top Box
- ✓ Wightman fibre internet at 50 Mbps or higher

Not sure if you have these? Contact us – we'll check for you.

*Most current devices work great; older versions may vary  
Streaming TV does not include local radio or Stingray music channels*
